

GRANIFLEX™

THE WORLD'S FASTEST SETTING BROADCAST COATING SYSTEM

Graniflex™ is a one-of-a-kind concrete resurfacing solution for exterior/interior concrete surfaces. Stronger than concrete, flexible like rubber; this coating is made to outlast any other on the market. With up to 590% elongation and the ability to withstand extreme temperatures, your concrete will survive the test of time. This high performance formula makes this application perfect for all exterior concrete surfaces! Create a custom chip blend or choose from pre-made blends to broadcast into this flooring system to create a unique granite or quartz design.

Benefits include the advantage of being highly crack resistant, waterproof, slip resistant, seamless, designed, and fast installations make it the ultimate coating!!

If you're looking for a low maintenance concrete solution, then Graniflex™ is the coating for you!
